TRANS POWER'S 30TH ANNIVERSARY

As we celebrate our 30th year in business, we are reminded of how quickly time flies by. Our company was founded in 1990 with only a handful of employees and a few pieces of heavy equipment. Today, we have an extensive fleet of construction vehicles and equipment, situated on 8.5 acres of facility space, and hundreds of loyal and dedicated team members who are whole heartedly committed to the Trans Power philosophy – take care of the client first, and the rest will follow.

At our core, Trans Power has always been about solving our client's most challenging problems, and we take great pride in the successes we have realized along the way. To all our employees, clients, partners and friends, we have accomplished a lot together during our first 30 years, and words cannot hope to express how grateful we are to you for your continued commitment to Trans Power.

Thank you all for helping to make Trans Power the success it is today, and the success it will be for decades to come.

Sincerely,

Frank Mongillo and Simone De Gasperis
